

# Sewer—Cost and Construction

## Tapping Fee

The tapping fee for each residential user shall be:

- **One Thousand Nine Hundred Fifty Dollars (\$1,950)**

The estimated daily use tapping fee for each non-domestic/industrial user shall be:

- **Eight Dollars (\$8.00) per gallon of estimated daily flow**

## Connection Fee

The connection fee for installation of a Lateral from the Authority sewer to the Improved Property curb line or, if there is no curb line, to the property line or easement line, shall be:

- the actual cost paid by the Authority for construction of said Lateral, including all services, materials, equipment, labor, appliances, fuel, power, and all other incidentals necessary for the performance and completion of the work, plus 10% of this amount for overhead.

## Permit Fee

The Permit Fee to cover the Authority's administrative cost of issuing a permit for connection to the Sewer System shall be as follows:

- **Thirty-Five Dollars (\$35.00)** for each residential user
- **Fifty (\$50.00) plus all engineering costs associated with review and approval of the permit application** for each commercial or institutional user

## Inspection Fee

The Inspection Fee to cover the Authority's cost of inspecting, witnessing the testing of, and approving the Building Sewer upon completion of construction shall be:

- **Three Hundred Dollars (\$300.00)**

If a re-inspection of the Building Sewer is required due to failure to pass the initial test, the re-inspection fee shall be paid directly to the Authority Inspector at the approved hourly rate for the actual time required.
